A person in Kṛṣṇa consciousness does not run this risk. One has to engage his mind and senses in Kṛṣṇa Conscious activities, and Lord Caitanya teaches one how to do this in practice.

Bhaktivedanta Swami, one of the greatest philosophers of the twentieth century, implores us not to lose sight of our true hankering and needs. CONSCIOUSNESS THE MISSING LINK

Consciousness is perhaps the most puzzling problem we humans face in trying to understand ourselves. In this thought-provoking book, scientists of the Bhaktivedanta institute examine key underlying concepts of the modern life sciences in light of India's age-old Vedic knowledge offering an enlightening view of consciousness through the lenses of science and philosophy.

LIFE COMES FROM LIFE

Life Comes From Life is an impromptu but brilliant critique of some of the presumptions and theories of modern science and scientists. Science has long assumed and promoted the idea that everything we see around is made of matter, and that all natural phenomena, including biological, physiological, psychological and cosmological, can ultimately be broken down and explained in terms of the workings of fundamental particles such as electrons and protons governed by physical and chemical laws. In particular Śrīla Prabhupāda, one of the greatest philosophers and scholars of the twentieth century, analyses and uncovers the hidden and unfounded assumptions underlying two of the modern science's principal theories—the theories of the origin of life and the theory of diversity of biological species (theory of evolution).

BEYOND ILLUSION AND DOUBT

From Socrates to Sartre, Western philosophers have grappled with the ultimate questions: “What is the meaning of life?” “Does God exist?” “What is the supreme Good, and how can we achieve it?” But, as brilliant as their writings are, there have been no conclusive answers from Western thinkers. He outlines the process of bhakti yoga by which we can transcend illusion and doubt in our own lives and proceed with certainty on the path to perfection.

LORD CAITANYA *His Life & Teachings*

Throughout the ages, many avatāras—divinely inspired teachers and incarnations of God have appeared in the world, but none has ever distributed spiritual love as freely as the Golden Avatāra, Lord Caitanya Mahāprabhu. Caitanya Mahāprabhu (Mahāprabhu means “the Great Master”) appeared in Bengal, India, in 1486, and He lived for 48 years, yet He began a revolution in spiritual consciousness that has profoundly affected the lives of millions. Renowned as a great saint even in His youth. Lord Caitanya left His family at the age of 24 to teach the forgotten essence of the ancient Vedic wisdom throughout India. Although He Himself was a fully renounced mystic, He taught how one can act in spiritual consciousness even within one’s home, occupation, and social affairs. Thus, His teachings, although timeless, bear special relevance for today’s world. He taught a practical process that anyone can perform to directly feel the ecstasy of pure love of God. This book tells about the extraordinary life of this great saint and explains the essence of His teachings.

ŚRĪ CAITANYA-CARITĀMṚTA 9-VOLUME SET

The Pastimes of Lord Caitanya Mahāprabhu

In the early sixteenth century the West was on one course, the East on another. In India, Caitanya Mahāprabhu was directing people inward, toward a scientific understanding of the highest knowledge of man's spiritual nature. Śrī Caitanya-Caritāmṛta is the main work on the life and teachings of Śrī Caitanya Mahāprabhu, the incarnation of Kṛṣṇa who appeared in India five hundred years ago. Lord Caitanya introduced the chanting of the holy names of God as the prescribed method of God-realization for our time. He began what is today called the Hare Kṛṣṇa movement, since the movement's founder, Śrīla Prabhupāda, comes in the Caitanya line of spiritual masters. Lord Caitanya transformed the face of India in four respects: philosophically, by encountering, defeating and converting the greatest philosophers and thinkers of His day; religiously, by organizing the largest, most widespread theistic movement in India's history; socially, by His strong challenges to the religious inequities of the caste system; politically, by His organization of a massive civil disobedience movement in Bengal, more than four centuries before Gandhi. This English translation with commentary, by His Divine Grace A.C. Bhaktivedanta Swami Prabhupāda, reveals his consummate Bengali and Sanskrit scholarship, his intimate familiarity with the precepts of Śrī Caitanya, and his pure devotion to God.

ŚRĪMAD BHĀGAVATAM 18-VOLUME SET

*Internationally acclaimed standard reference guide on Vedas,
Upaniṣads, Purāṇas, Itihāsas.*

Śrīmad-Bhāgavatam is the transcendental science not only for knowing the ultimate source of everything but also for knowing our relation with Him and our duty toward perfection of the human society on the basis of this perfect knowledge. Śrīmad-Bhāgavatam makes clear that because the book is intended for people serious about spiritual progress, it will not deal with sectarian religious ideas, philosophical conjecture, or worldly concerns. Originally preserved through oral tradition, the Vedas were first put into writing by Śrīla Vyāsadeva, the “literary incarnation of God.” After compiling the Vedas, Śrīla Vyāsadeva was inspired by his spiritual master to present their profound essence in the form of Śrīmad-Bhāgavatam. Known as “the ripened fruit of the tree of Vedic literature,” Śrīmad-Bhāgavatam is the most complete and authoritative exposition of Vedic knowledge. The questions of King Parīkṣit and Śukadeva Goswāmī’s illuminating answers in the Bhāgavatam, concerning everything from the nature of the self to the origin of the universe, are the basis of Śrīmad-Bhāgavatam. This edition of Bhāgavatam is a complete English translation with an elaborate and scholarly commentary, and it is the first edition widely available to the English-reading public. This work is the product of the scholarly and devotional effort of His Divine Grace A. C. Bhaktivedanta Swami Prabhupāda, the world’s most distinguished teacher of Indian religious and philosophical thought.

THE PATH OF PERFECTION

The contemporary, thoughtful reader in search of self-fulfillment and a means to attain it will find The Path of Perfection a welcome relief. Herein one will find a clear, intriguing explanation of the philosophy and practice of mankind's oldest system of spiritual development - yoga. His Divine Grace A.C. Bhaktivedanta Swami Prabhupāda (1896-1977) elucidates the philosophy of yoga as explained in the Bhagavad Gītā.

The Gītā describes the scene, when perplexed and confused about his identity and purpose; Arjuna turns to Kṛṣṇa, who then reveals "the path of perfection" to His able student. The essence of Lord Kṛṣṇa's teachings is that one must center their life on the practice of bhakti-yoga that is, the union between the individual consciousness and the Supreme Consciousness.

Through this historical series of talks, Śrīla Prabhupāda offers a brilliant exposition of the methods of bhakti-yoga, revealing the universal applicability of this simple but all-inclusive form of yoga. He shows how even those who are entangled in the complexity and chaos of modern-day materialistic life can employ this straightforward practice to purify their mind and elevate their consciousness to a state of ultimate happiness.

CHANTING HARE KRISHNA

By chanting Hare Krishna, we reap innumerable benefits. Chanting calms the mind, clarifies our thinking, brings unlimited happiness and auspiciousness, and purifies the consciousness, culminating in Krishna consciousness, or love of God. We can control our mind, instead of letting it control us. The Sanskrit word mantra means “to deliver (tra) the mind (man).” Chanting Hare Krishna, the great mantra, the maha-mantra, is a special opportunity to redeem our mundane life, given away to meaningless pursuits, and to participate in the divine consciousness. When the mind focuses on the Hare Krishna mantra, we become fully energetic, confident, and blissful. Anxieties, worries, and unnecessary wavering are overcome. A peaceful self is the basis for a happy and productive life. The Hare Krishna mantra properly channels our search within and provides occasions to visualize the ultimate source of energy within our heart. Chanting is thus the key to perceiving our true, spiritual self beyond the senses, mind, and intelligence—liberated from our karma and conditioning.

LIGHT OF THE BHĀGAVATA

The simplicity, beauty and intricacies in nature have captivated the minds and hearts of the greatest philosophers throughout time. Of all the classic works in the vast treasure house of India's timeless Vedic literature, the Śrīmad-Bhāgavatam is the most sublime and precious, for it embodies the essence of spiritual truth in beautifully poetic passages. Within the Tenth Canto of this incomparable masterpiece is a description of India's rainy autumn season as an extended metaphor to illustrate various aspects of transcendental wisdom. For example, the cloudy skies of autumn nights, which obscure the moon and stars, represent the materialism of the present age, which hides true wisdom from the human mind. Through the 'Light of the Bhāgavata', Śrīla Prabhupāda, one of the greatest philosophers of the twentieth century presents a clear and tangible illustration of the purpose and significance of nature and its origin.

Light of the Bhāgavata captures the philosophy of India in a beautiful Chinese art and cultural presentation.

The Secrets Of Transcendental Love

Down through the ages, highly evolved souls of both the East and West have taught that we can attain perfect, pure, and eternal love only when we learn to love God. Bhakti-yoga, the science of devotion, teaches us this art. And there is no greater teacher than the Vedic sage Nārada. Nārada's eighty-four jewellike aphorisms on devotion, known as the Nārada-bhakti-sūtra, reveal the secrets of love of God—what it is, and isn't; what its effects are; what helps or hinders our progress along the path; and much more. For the sincere seeker of life's ultimate goal, the Nārada-bhakti-sūtra is essential.

A UNIQUE OPPORTUNITY

Human life. We don't often stop to think about it. Today's fast-paced world hardly gives us a chance. But what does human life mean? The phrase conjures images of opportunity, awareness, and self-fulfillment. But more often than not, people feel that something is missing from their lives. That it is incomplete.

This century's stunning technological achievements often eclipse much of the "human" experience of personal growth and the wealth of traditional values that contribute substantially to the quality of life. The books presented in this catalog will help you rediscover those lost, all-important assets of life. Drawn from the rich body of India's timeless Vedic literature, Bhaktivedanta Book Trust publications represent a holistic approach to life and provide our readers an opportunity to explore the essential human dimensions that make life satisfying and complete.

BHAKTIVEDANTA BOOK TRUST

The Bhaktivedanta Book Trust was established in 1972 by His Divine Grace A.C. Bhaktivedanta Swami Prabhupāda. Śrīla Prabhupāda, as he is known, is recognized by the academic community as the principal scholarly authority on Vedic literature and philosophy. Throughout his life, Śrīla Prabhupāda wrote prolifically, receiving the title Bhaktivedanta in recognition of the depth of scholarship and devotion in his works. During the late 1950's he began the great work of his life, a translation of and commentary on the Bhagavata Purāṇa. After completing several volumes of this work, in 1965 he traveled to the United States to spread the teachings of the Vedas.

Despite Śrīla Prabhupāda's advanced age, in just twelve years, from 1965 to his passing away in 1977, his literary and religious contributions to the world accelerated dramatically. He established the International Society for Kṛṣṇa Consciousness (ISKCON), a world-wide organization of temples and farm communities, circled the globe fourteen times on lecture tours that took him to six continents, and wrote over sixty books on the science of Kṛṣṇa consciousness. His writings constitute a veritable library of Vedic philosophy, religion, literature, and culture.
