

Your daily drive, now enriched with wisdom

Listen to Transcend audiobooks on Apple CarPlay and Android Auto for calm, uninterrupted listening.

Android Auto

Apple Carplay

The CarPlay and Android Auto feature allows you to listen to Transcend audiobooks directly through your car's infotainment system. You can safely play, pause, and navigate between chapters while driving using CarPlay or Android Auto's native controls, as well as your car's steering mounted audio buttons.

Built for car infotainment

 Transcend app appears directly on your infotainment display through CarPlay or Android Auto.

Driving-focused interface

 Only essential listening options are shown, keeping the screen clean and easy to use on the road.

In-car safety compliant

 The app follows Apple CarPlay and Android Auto safety requirements for use while driving.

Phone-free use while driving

 Once connected, listening continues without handling or looking at your mobile phone.

Full control from the wheel

 Play, pause, and move between chapters using steering-wheel or car controls.

Automatic resume

 Your listening progress is saved, so playback continues from where you last stopped.

TRANSCEND

To A Higher Life

-  Ensure your car supports Apple CarPlay or Android Auto
-  Install and log in to the Transcend app once
-  Connect your phone and open Transcend on the car screen

And let every journey elevate you.
